

## Technical Author

**Location:** Crawley, West Sussex  
**Salary:** Attractive packages for Contract positions  
**Hours:** 37 hours per week  
**Contract:** Contract 3 months

DCS Sonovision consists of passionate, dynamic and quality driven people who come from a wide range of backgrounds including the Aviation, Rail, IT, Financial and Defence industries. DCS Sonovision believes that understanding the product is fundamental to creating world class documentation. This approach, and an enthusiasm for new technologies, is what bring our customers back to us time and time again.

### The role:

The role will primarily be creating supplementary chapters for AMM and IPC documentation for a new fleet of Aircraft for a world-class Airline.

#### Your position will involve;

- Creating Aircraft Maintenance Manual (AMM) and Illustrated parts Catalogue (IPC) supplements in iSpec2000
- Database (CSDB) environment using Airbus Adoc Web
- Compiling source data from the Customer Engineering Database
- Working closely with the Technical Illustrators
- Liaising with the customer engineering teams
- Liaising with the on-site support team to resolve technical queries

### To be considered for this opportunity:

- Minimum of 3 years' relevant experience within the aircraft industry
- Experience in working in the Airbus Adoc Web system
- Experience in using SGML / XML
- Experience with CSDBs
- Experience with AMM and IPC
- Familiar with ICN structure
- Good understanding of engineering data in a variety of formats from Engineering drawings to Design Reports
- Adequate competency using different software packages for planning/reporting purposes
- Liaising with the customers project lead and the engineering team
- A pro-active thinker that can provide potential solutions
- Drive and enthusiasm to achieve customer quality criteria
- Ability to work to deadlines and adhere to schedules
- Ability work with a minimum of supervision

#### The right candidate will have the following skills and background;

- A pro-active approach to problem solving and investigation
- Strong communications skills and be able to work as part of the team
- The capability to manage multiple tasks at once and providing reports to the Project Coordinator
- The ability to remain flexible and adapt to changing customer requirements
- The capability to work to tight deadlines with minimal supervision

## Screening:

Are you a commercially experienced Aircraft Technical Writer/Author?

Do you have a minimum of 3 years' relevant experience within the aircraft industry?

Do you have experience in working in the Airbus Adoc Web system?

Have you an understanding of engineering data in a variety of formats, Drawings and Design Reports?

Are you available for an immediate start?
