

## Technical Author

<b>Location:</b>	Cambridge
<b>Salary:</b>	Attractive packages for Contract positions
<b>Hours:</b>	37 hours per week, with possible overtime
<b>Contract:</b>	Estimated 6 months

DCS Sonovision consists of passionate, dynamic and quality driven people who come from a wide range of backgrounds including the Aviation, Rail, IT, Financial and Defence industries. DCS Sonovision believes that understanding the product is fundamental to creating world class documentation. This approach, and an enthusiasm for new technologies, is what bring our customers back to us time and time again.

### The role:

**Your role will focus on the creation of documentation on behalf of a world-class Maintenance, Repair and Overhaul (MRO) organisation.**

#### Your position will involve;

- Creating Aircraft Maintenance Manual (AMM) to iSpec2000 using FrameMaker
- Compiling source data from the Customer Engineering Database to create AMM chapters
- Working closely with the Technical Illustrators
- Liaising with the customer engineering teams
- Liaising with the on-site support team to resolve technical queries

#### The right candidate will have the following experience;

- Strong understanding of Aircraft publications and iSpec2200
- Strong understanding of Simplified Technical English (STE) rules
- Good understanding of Quality Control processes and CSDB structures
- Good working knowledge of FrameMaker
- Working with dedicated authoring and illustrating guides
- Working with Engineering Drawings, Manufacturer Production Processes and 3D Models

### To be considered for this opportunity:

#### The right candidate will have the following skills and background;

- A pro-active approach to problem solving and investigation
- Strong communications skills and be able to work as part of an international team
- The capability to manage multiple tasks at once and providing reports to the Project Coordinator
- The ability to remain flexible and adapt to changing customer requirements
- The capability to work to tight deadlines with minimal supervision
- Valid Driving Licence

Please note, candidates must successfully undergo UK Security Vetting before they can be appointed.

## Screening:

Are you a commercially experienced Technical Writer/Author?

Have you an understanding of engineering data in a variety of formats, Drawings and Design Reports?

Do you have experience in creating aircraft maintenance manuals or similar?

Have you 3 years' relevant experience within Aerospace, Defence, Rail, Energy or Nuclear industry

Are you eligible to live and work in the UK, with a valid Passport?
