

Technical Author

Location: Letchworth, Hertfordshire

Salary: Attractive packages

Hours: 37 hours per week, with possible overtime

Contract: Permanent

DCS Sonovision UK provides a full range of Technical Publications to multi-national companies world-wide. We develop printed, electronic and online documentation, working to industry specific standards such as S1000D, ATA, JSP and DITA for the Defence, Energy and Aerospace sectors.

The role will be producing documentation for various world-class manufacturers within the commercial, defence, aerospace, energy and rail industries.

To be considered for this opportunity:

Minimum of 3 years' relevant experience within the industry.

- Experience working on Data Modules
- Experience with S1000D
- Experience with defence and aerospace related specifications
- Good understanding of engineering data in a variety of formats from Engineering drawings to Design Reports
- Ability to communicate technical information in a clear and concise manner
- Adequate competency using different software packages for planning/reporting purposes
- A pro-active thinker that can provide potential solutions
- Ability to track production of tasks from conception to completion
- Drive and enthusiasm to achieve customer quality criteria
- Ability to work to deadlines and adhere to schedules
- Ability work with a minimum of supervision
- UK Passport
- UK Driving License
- Current SC Clearance an advantage

Our client is part of an international technical publications organisation with a strong business vision. Our UK offices in Letchworth & Bristol support a strong customer base which is rapidly growing.

Keywords:

Technical Author, Technical Writer, Engineering, Aircraft industry, Aviation, Defence, Rail, Energy, Nuclear
